

## **KADAN KENNELS**

Welcome to Kadan Kennels' competition information page. Here you will find information on the disciplines that we will offer, at competitions including divisions. We are pleased to have both Open/vet and Lap divisions in all of our disciplines.

### **Disciplines:**

**Catching** –. Each successful catch will obtain a measurement of where the base of the dog's tail enters the water. Both successful catch measurements will be added together, for an overall score to determine placement in the division. There are no handoffs permitted. The handler must throw the bumper/toy for the dog to catch. You can place with only one successful catch

**Grabbing** – This discipline will require the dog to grab the bumper off of the rig, which will be suspended 2’ off of the dock for open dogs and 1’ off the dock for Lap. The rig will be moved out in 1’ increments with each successful grab. The dog’s turn will cease when they have two consecutive missed attempts or three overall misses and the dog’s score will be the distance at which they obtained their last successful grab.
